

Roy Heinrich A. Delgado

Kalibo, 5600 Aklan | royheinrich.delgado0@gmail.com | 09293792459

PROFESSIONAL SUMMARY

Results-driven Information Technology graduate with hands-on experience in full-stack web development, backend systems, and ICT technical support. Proven ability to develop and deploy real-world solutions — including a Laravel-based digital logbook system achieving 90% uptime and a multilingual NLP chatbot — that improve operational efficiency and user accessibility. Adept at working in fast-paced government and institutional environments, with a strong foundation in Python, PHP, RESTful APIs, and database management. Recognized on the Director's Honor List (2024–2025) and committed to applying ethical, secure, and scalable technology in public service.

EDUCATION

Aklan State University

Bachelor of Science in Information Technology

Director's Honor List 2024–2025

Kalibo, Aklan

Expected June 2026

Aklan State University

Bachelor of Arts in Communication

Committee Member, Communicator's Guild

Banga, Aklan

Aklan Catholic College – Senior High School

HUMSS Strand

Kalibo, Aklan

April 2020

ELIGIBILITY

Civil Service Commission (CSC) – Professional Level

Passed

March 2025

EXPERIENCE

Department of Information and Communications Technology (DICT) – Aklan Provincial Field Office

OJT Intern

Kalibo, Aklan

Jan 2026 – Apr 2026

- Developed the DICT DTC Aklan Digital Logbook System using Laravel (PHP) with SQL injection protection and dynamic logging, achieving 90% uptime and 100 entries/day capacity; presented to supervisors.
- Facilitated 2 large-scale ICT Skills Training programs and provided technical support for the 3-day eLGU System Refresher Training, supporting government and military personnel across multiple sessions.
- Supported 3 community outreach programs and produced cybersecurity awareness content for DICT Aklan's official channels, including event documentation for sessions targeting IT and CS students.
- Earned 2 Cisco Networking Academy certifications — Python Essentials I and Introduction to Data Science — applied directly to backend development work during the internship.

Guidance and Counseling Service Office, Aklan State University

Student Assistant

Kalibo, Aklan

2023 – 2024

- Built and deployed an informational website via Hostinger, tripling student access to counseling resources within the first month and centralizing services for 200+ students on a single platform.
- Reduced manual announcement distribution time by ~40% and eliminated IT dependency for routine updates by implementing a content management strategy for non-technical office staff.
- Delivered on-site technical support during GCSO events, resolving issues within 5–10 minutes and maintaining uninterrupted operations throughout each event.

LEADERSHIP & ACTIVITIES

Guidance and Counseling Service Office, Aklan State University

Technical Staff – ASU Job Fair 2024

Kalibo, Aklan

May 2024

- Configured and maintained 5 computer systems for 300+ attendees, reducing applicant wait times by ~30%.
- Provided on-site technical assistance to 80+ applicants navigating digital registration forms and online platforms.
- Resolved technical issues within 5–10 minutes on average, sustaining consistent system uptime throughout the event.

KEY PROJECTS

Multilingual School Chatbot – Tomas S.M. Bautista Elementary School

- Planned and deployed a multilingual chatbot (English, Tagalog, Aklanon) handling 50+ FAQs, achieving 95%+ intent classification accuracy across 15+ intent categories and improving query accuracy by 60%.
- Applied Python-based NLP (NLTK, TextBlob) with a custom NLU engine for entity extraction, grade-level translation, and context-aware responses; managed 338 commits across the project lifecycle.
- Integrated FastAPI backend with RESTful API endpoints, Supabase connection pooling, Redis and in-memory caching for 80%+ cache hit rate, and a three-tier search system (FTS, BM25, fuzzy matching).
- Deployed on Render with environment-based logging and real-time performance monitoring, sustaining under 2-second average response time and supporting 100+ concurrent users.

DICT DTC Aklan Digital Logbook System

- Developed a full-stack web application using PHP/Laravel (backend) and JavaScript, HTML, and CSS (frontend admin dashboard), sustaining 90% uptime and handling up to 100 entries per day.
- Maintained version control via GitHub across 11 repositories; leveraged Supabase for structured database management supporting 100+ daily entries with optimized query performance.
- Implemented SQL injection protection middleware and dynamic logging configurations to safeguard user data.

SKILLS

Languages: PHP, Python, JavaScript, Java, VB.Net

Frameworks & Tools: Laravel, FastAPI, RESTful APIs, SQL, Supabase

Security: SQL injection protection middleware, dynamic logging

Deployment & Version Control: Hostinger, Render, GitHub

Chatbot Engineering: Context-aware NLP, fuzzy matching, multilingual support, memory management

Other: PC inventory management, ICT training facilitation, technical support, content management
